## «EYEBROW CARE» PRODUCT LINE

#### **EYEBROW PRIMER BRONSUN, 50 ML**

Gently and effectively prepares eyebrow area for the tinting procedure. Removes makeup residues, cleanses and degreases the skin and hairs without drying them out. Promotes even tinting and prolongs the result longevity.

> [Vendor code: ULB0001] price: \$28.95

#### EYELASH & EYEBROW SALINE SOLUTION BRONSUN, 50 ML

The multi-functional product for cleansing and degreasing the eyebrows and eyelashes before a procedure: tinting with dye or henna, lamination, long-term Brow Perm or reconstruction one.

[Vendor code: ULB0002]

#### **EYEBROW SHAMPOO BRONSUN, 50 ML**

The product gently cleanses and degreases the eyebrows and skin under them but also provides required care.

Due to betaine, an active ingredient of a natural origin, it makes hairs shine and improves their structure.

Panthenol moisturizes, strengthens and softens the hairs, providing a "conditioning" effect.

## PERFECT CURL

## EYELASH APPLICATOR

ow the stage of fixing eyelashes during the procedure of lamination and reconstruction of eyelashes became many times faster and will take only a couple of minutes. And the result will be better than even with the most accurate work of tweezers.

The applicator has two working surfaces, one of which is equipped with small denticles, similar to a comb. They allow you to grab the eyelashes from the root to the very tips and glue them parallel to each other.

The second is absolutely smooth – for denser pressing of eyelashes to the form, drawing of compositions and gluing of eyelashes from the form.

Applicator for eyelash lamination and reconstruction

[Vendor code: SC-00062]

price: \$8.95

## **LASH & BROW «RECONSTRUCTION»**

#### THE COMPOSITIONS DO NOT CONTAIN THIOGLYCOLIC ACID AND HYDROGEN PEROXIDE

The active component of the first composition, cysteamine, gently affects the disulfide bonds of the hair, not destroying but only stretching them. As a result, eyelashes acquire expressive and resilient curl that looks like a natural one, and evebrows look wellgroomed and perfectly shaped.

#### THE EFFECT LASTS UP TO 6 WEEKS!

Due to ceramides, amino acids, healing oils and plant extracts, contained in the compositions, evelashes and eyebrows acquire the lost softness and elasticity. Even though the hairs have been damaged by frequent tinting, low-quality lamination or weakened after extensions.

### **EYELASHES MAYAMY**

A special coating creates an even obsidian black tone. Thanks to the unique "SHOCKt ° emp" baking technology , eyelashes acquire special softness from base to ends, while maintaining firmness and bending, without deforming at temperature drops from -40 ° C to +120 ° and in high humidity conditions.

They are perfectly formed and do not crumble in the bundle. When working

in volumes, it becomes possible to create a velvet fan from artificial eyelashes. The eyelashes are ideal for working with tape (the glue base is delicately peeled off when removed), and they also lie well in the hand when forming a bundle with a manual technique. MAYAMY eyelashes are ideal for both a beginner and a professional.

# SOAP FOR EYEBROWS STYLING

Eyebrow soap is a trendy product for creating the effect of natural, perfectly groomed eyebrows! The formula allows you to instantly make each hair visually denser, create a beautiful textural volume and the desired density, lift the hairs from the very root and correct their direction. The product is suitable for all types of eyebrows, even the toughest and most unruly hairs. Styling stays securely throughout the day without the need for correction!

# MAYAMY Brow soap:

suitable for daily use; does not tighten the skin and does not dry eyebrows; does not leave plaque on the hairs; does not crumble after drying; does not disturb the pH balance of the skin; we have a pleasant cranberry aroma.

One product - several styling options: from natural and fluffy to combed up and glossy! With Brow Soap, you can also create a long-lasting styling or lamination effect for up to 12 hours. For a more natural styling effect, use a dry brush. For a stronger hold or for a long-lasting styling effect - first moisten the brush, draw in the product and tuck your brows in the desired direction. Eyebrow soap can be used on its own or with your favorite tint: mascara, eye shadow, pencil, or brow pomade.

Brush for easy application included.

# Mode of application:

Spray some water on the surface of the brush. Bend the brush to a convenient angle for styling. Apply enough soap to the brush.

Comb through your eyebrows well so that the product is evenly distributed over the hairs. After that, style your eyebrows in the desired direction,

pulling out the hairs a little with a brush. Wait for your eyebrows to dry. Apply the eyebrow makeup you are using as needed.

# EYELASH AND EYEBROW GROWTH SERUM

MAYAMY Oh my Grow Eyelash & Eyebrow Serum, 4 ml

Truly effective products for the growth of eyelashes and eyebrows based on the innovative bioactive complex CAPIXYL \*\*!

Does not contain hormones, is not addictive and does not have withdrawal symptoms.

They have a healing composition enriched with amino acids, vitamins and natural extracts.

Provide long-term effect.

Available in convenient premium bottles.

CAPIXYL <sup>™</sup> is an active complex of the latest generation based on biomimetic peptide and red clover extract, it is highly effective, helps to reduce hair loss and enhance hair growth.

Eyelash: The Oh My Grow eyelash serum increases the length and volume of eyelashes, activates their growth, and also gently cares for them. Visible increase in lash density in just 4 weeks! The serum is effective for damaged and thinned eyelashes after extensions and other cosmetic procedures, in anti-aging care, for eyelash loss caused by seasonal factors. Oh My Grow helps you grow thick, healthy, full of life lashes. They will become noticeably larger and stronger, acquire an attractive appearance!

## How to use:

Pre-clean the eyelashes and eyelid skin from makeup and impurities. Apply the serum with the built-in applicator to the eyelid skin at the base of the upper and lower lashes. Draw a thin line along the upper and lower eyelids with the applicator from the inner corner of the eye to the outer corner. If necessary, blot the skin of the eyelid with a tissue to remove excess product.

Use daily, once a day, preferably at bedtime.

The recommended course for strengthening and stimulating eyelash growth is 4-12 weeks.

Eyebrow: The Oh My Grow serum nourishes and plumps hairs, makes eyebrows thicker, but most importantly – activates the growth of new hairs. Visible results in 4 weeks! The serum is effective for eyebrows damaged as a result of frequent corrections, coloring, tattooing and other cosmetic procedures, in anti-aging care, in case of loss due to seasonal factors. Oh My Grow helps you grow wide and bushy eyebrows. They will become noticeably larger and stronger, acquire an attractive appearance!

## How to use:

Pre-clean the eyebrow area from makeup and impurities. Apply the serum with the built-in brow brush to the roots. If the line of your eyebrows is thin and / or you want to correct it (bend, thickness, length of the eyebrow line) - apply the product in the desired shape. If necessary, blot your eyebrows with a tissue to remove excess product. Use daily, once or twice a day, morning and / or evening.

The recommended course for strengthening and stimulating eyebrow growth is 4-12 weeks.

# Kalentin «LASH LIFT»

# Vegan Lash Lift

Kalentin vegan lash lift range has been developed as an alternative to eyelash extensions but also to give salons a vegan lash treatment to offer to their clients.

Registered with the Vegan Society, the vegan lash lift range has been stringently tested to ensure it meets strict vegan values. The range is also cruelty free with animal friendly alternatives used instead. Our recent addition to the vegan range is our vegan tint collection. These tints are free from beeswax, have super pigmented colours and buttery texture that are becoming a firm favourite with our clients!

# Vegan «KLC» Lash Lift Kit

# KALENTIN RANGE

The formulations of the Perfect Eye range are based on an exclusive peptide complex (4P Complex) in which the different ingredients are combined together to create specific actions performed by each individual products. The synergistic action of the 4P complex offers a 360° treatment for the eye area: the strengthening of capillaries and improvement of microcirculation, decreasing the loss of fluid in the lower part of the eye (anti-dark circles), promotion of fluid drainage (anti-puffiness), improving of skin elasticity (anti-wrinkle – firming – toning), activation of cellular repair and renewal through the synthesis of macromolecules of the matrix (anti-wrinkle), skin barrier repair and the restoration of damage to the skin matrix (smoothing – anti-wrinkle).

Perfect Eye Primer 15ml

[Vendor code: KAL00611}

# Eye Puffiness 15ml

A gel formulation specifically designed to address under-eye puffiness. It works on reducing puffiness by decongesting, moisturising and soothing the area. Thanks to a draining and anti-edema action it helps to improve lymphatic circulation preventing the formation of swelling and promoting skin elasticity. This Anti-Puffiness gel has a light and evanescent texture that gives a pleasant sensation of immediate freshness and prolonged well-being. Ideal to use before makeup due to its light and nourishing texture.

[Vendor code: KAL00612]

A pearlescent gel especially formulated for under-eye dark circles. It works by minimising dark circles thought a decongesting, soothing and illuminating action. It acts against capillary fragility and promotes hydration, performing drainage and an anti-edema action, reducing discolouration and giving a brighter look to the eye area. Ideal to use before makeup due to its light and nourishing texture.

[Vendor code: KAL00613]

# Perfect Eyelid 15ml

Product for the care of the eyelid, targeting wrinkles and puffiness. With anti-ageing and firming properties, it improves the skin elasticity and strength. From the first application the eyelid area marked by time, appears smoother and rejuvenated; the skin is fresh and relaxed. The periorbital area looks more toned and radiant. Ideal to use before makeup due to its light and nourishing texture.

[Vendor code: KALOO614]

# Eye Lifting 15ml

A care product for the eye contour with lifting and firming properties. It promotes cell renewal and helps to strengthen the extra-cellular matrix. Eye winkles are visibly reduced and the eye area is more compact and uniform. The ultra-fine and spherical soft focus powders smooth and fill winkles. Day after day, the product keeps the skin hydrated, protected and gives it a more elastic and compact appearance. The look feels rejuvenated and brighter. Ideal to use before makeup due to its light and nourishing texture.

[Vendor code: KAL00615]

# Eye Contour 15ml

Product for the treatment of the eye contour with a multiple action on wrinkles, puffiness and dark circles. With its hydrating properties, it promotes the reduction of TEWL, stimulating cell renewal and the strengthening of the dermis. A product dedicated to the area around the eyes, with a silky touch that melts on to the skin, instantly minimises wrinkles, concealing imperfections and exerting a lifting effect. Ideal to use before makeup due to its light and nourishing texture.

# 3 in 1 Hydra Facial Microdermbrasion Machine

# About:

NEW technology that combines the efficacy of Microdermabrasion, vacuum system and new Aqua Fuse hydration system. It is a lot gentler than crystal microdermabrasion or diamond dermabrasion as only water is used, and we use professional quality machines. Hydra-dermabrasion (or hydra microdermabrasion) applies mechanical and chemical peeling simultaneously.

# **Beauty Plus Crystal Microdermabrasion Machine**

The original and strongest procedure, Crystal Microdermabrasion gently blasts aluminium oxide crystals onto the outer surface of the skin, working to break up the

dead skin cells that have accumulated on the surface of the skin. Crystal Microdermabrasion propels a high speed flow of Aluminium Oxide crystals onto the skin. The crystals blowing over the skin loosens dead skin cells and other impurities from the skin, while negative pressure (vacuum suction) sucks away the crystals and skin debris. This process deeply exfoliates, smoothes and polishes the skin, and is one of the most sought after treatments in skin clinics today.

# 2 in 1 Crystal/Diamond Microdermabrasion Machine

A procedure that uses fine crystals and a controlled vacuum to exfoliate the skin. After the treatment, the skin has improved texture and softness, as well as fewer imperfections such as wrinkles and acne scars. The crystals abrade away old, dead skin cells, which the vacuum then picks up with gentle suction. This promotes the growth of collagen and new, rejuvenated skin.

# Diamond Dermabrasion: The diamond microdermabrasion (crystalfree) system replaces the micro-crystal flow with a diamond tip wand. Provides a Non-Surgical skin resurfacing procedure by
